Nikon Cameras Supported

D40 ^{1,2}	D300	D4S	D5300	D7000	D810
D40X ^{1,2}	D300S	D5	D5500	D7100	D810A
D60 ^{1,2}	D3	D500	D600	D7200	D850
D80 ^{1,2}	D3X	D5000 ¹	D610	D7500	Df
D90 ¹	D3S	D5100	D700	D800	Z6
D200 ^{1,2}	D4	D5200	D750	D800E	Z7
Z50					

¹ These models require Windows Compatibility Mode be set to Windows Vista Service Pack 2.

² These models are **NOT** supported on Mac El Capitan (OSX 10.11) and newer macOS releases.

Enhancements

- None.

Bugs Fixed

- Fixed program crashes during startup with Z6 and Z7 Firmware Updates 1 and 2.

Known Issues

- D850 - Does not support download of movies larger than 2 GB to the computer.
- On Mac computers the program may hang if Adobe Bridge is running at the same time as CameraRC Deluxe.

End of Life Notifications

- Windows 7 and earlier versions of Windows are not officially supported by CameraRC Deluxe.
- MacOS 10.10 (Yosemite) and earlier versions of macOS are not officially supported by CameraRC Deluxe.

Program Limitations

- MacOS 10.15 (Catalina) and later versions of macOS are not supported by CameraRC Deluxe.
- Only one camera can be connected and in use by the program on a single computer.
- Hot switching between camera models (i.e., Changing cameras while the program is running) is not allowed.
- Program cannot be installed onto a network share - can only be installed on a local disk drive.
- Images captured that are not focused in contrast mode live view (i.e., focus indicator not green) will incorrectly display the last phase detect focus point instead of displaying no

focus point. The focus points are also incorrectly shown in Nikon Software as they are incorrectly stored in the image by the camera. The degree of this error varies depending on camera model.

- If there are a large number of images (100's) on the memory card installed in the camera it can take a minute or longer for the program to initialize.

System Requirements

- Windows 8 or later
- Mac OSX 10.10 - 10.14
- 2 Gbyte of RAM
- 150 Mbyte free disk space
- Recommended screen resolution 1024 X 768 - lower resolutions supported with scaling.
